

Portfolio

Hello, I'm Yutzu Chen.

I'm a product manager with 5+ years of experience leading cross-functional teams to build and launch digital products.

Experienced in end-to-end product development, from discovery and roadmap definition to launch and post-release optimization. Strong background in data-driven decision-making, experimentation, process improvement, and AI-powered product solutions.

My product management journey...

Projects

Aa Name	Skills
 <u>Designing a financial tool in a messaging app: My work on LINE Invoice</u>	 <u>Stakeholder Management</u> ,  <u>Product Roadmap</u> ,  <u>Product Delivery</u>
 <u>How I defined the right product strategy</u>	 <u>Product Strategy</u> ,  <u>UX Research</u>
 <u>A decision framework that works for 80% of scenarios</u>	 <u>Product Strategy</u>
 <u>Scaling product operations with automation (Jira, APIs, and LLM)</u>	 <u>Workflow Automation</u> ,  <u>JIRA Automation</u> ,  <u>Process Improvement</u>
 <u>Building a Voice of Customer intelligence system: Turning scattered reviews into actionable product insights</u>	 <u>Dashboard Building</u> ,  <u>Data Analysis</u>

Aa Name	➤ Skills
★ <u>How I used data to connect business goals and product decisions</u>	🚩 <u>Product Strategy</u> , 📊 <u>Data Analysis</u>
